

Ph.D & M.S. Scholarship

Electrical and Information Engineering (EIE) / Computer Science (CS) / IT Convergence (ITC) Seoul National University of Science and Technology (SeoulTech), Seoul, South Korea

Ph.D & M.S. Scholarship Opportunity

Faculties of Intelligent Systems Research Group, Department of EIE / CS / ITC are looking for highly motivated full-time

Ph.D & M.S. students interested in conducting cutting-edge research in electrical engineering and computer science.

Description

The chosen Ph.D & M.S. candidates will be enrolled as full-time graduate students starting from **September 2020**.

- The position is fully funded including a tuition waiver and competitive monthly salary.
- The main research directions of the group are

[Electrical Engineering Subgroup] wireless communications and networking (cellular networks, MIMO, IoT, etc.), system design with artificial intelligence (AI), RF component & antenna design, analog/RF integrated circuit design

[Computer Science Subgroup] virtual reality (VR), augmented reality (AR), multimedia systems, cloud/edge computing, human-computer interaction, machine learning

Application Procedure

An interested applicant selects either subgroup (or both) based on his/her research plan and emails the scanned copy of the following to the corresponding contact point by **February 29, 2020**.

1. Detailed CV in English
2. Official transcripts of previously attended undergraduate & graduate institutions
3. Certificate of TOEFL/IELTS/TOEIC score if available

Contact Information of Subgroups

[EE subgroup] ee.isys.seoultech@gmail.com

[CS subgroup] cs.isys.seoultech@gmail.com
